

MINI-ALU-SCREWDRIVERS

High-precision screwdrivers according to factory standard
 Aluminium handle with smooth-running rotating cap
 Radial concentricity with optimal adhesion
 Blades molybdenum-vanadium steel burnished
 Glare-free even in high light
 Precision blade hardened HRC 58-61
 100% Made in Germany

The rotating cap enables optimum handling for particularly tricky cases.

The knurling ensures a particularly good grip.

Thanks to the aluminium handle, the screwdrivers fit perfectly in the hand and are almost nickel-free.

The burnished blade is glare-free and, with good care, particularly durable and environmentally friendly.
