► 8100 VDE

An incredibly sturdy case made from cowhide in bright red. The front board is hinged, providing quick access to 35 tools which are stored in pockets and in the bottom tray. Behind the tool set there are additional compartments for safety gloves, an NH handle, circuit diagrams or various written documents. The case has two locks and eyelets on the sides for hooking in the carrying strap. A padded shoulder strap is also included.

BERNSTEIN safety tools are insulated and individually tested in accordance with VDE regulations IEC 60900 / EN 60900, guaranteeing maximum safety. The two-colour multilayer immersion insulation makes any damage to the outer red insulation immediately visible due to the yellow insulation underneath. The advantage is that a simple safety check can be carried out at any time.
