

8200 VDE TOOL CASE PROTECTION

A case containing a basic set of common safety tools.

BERNSTEIN safety tools are insulated and individually tested in accordance with VDE regulations IEC 60900 / EN 60900, guaranteeing maximum safety. The two-colour multilayer dip insulated makes any damage to the outer red insulation immediately visible due to the yellow insulation underneath. The advantage is that a simple safety check can be carried out at any time.

► 8200 VDE case

The compact shape and the textured surface give the case a high degree of stability. The use of X-ABS synthetic with an extremely non-slip and scratch-resistant surface makes the case resistant to external influences. The high-impact and unbreakable material also makes the suitcase „airworthy“ and withstands the harsh handling checked luggage is subjected to. An ergonomic handle, sturdy ratchet hinges with a lid lock, tool panels made of moisture-resistant and shatter-proof ConPearl® plastic with sewn-in pockets, two locks and an adaptable bottom shell (height 60 mm) add the finishing touches to this case.

► 8300 VDE backpack

The multifunctional tool backpack made from heavy duty and water-proof black nylon and contrasting white seams offers enough space for your tools with 26 pockets and 37 rubber loops. Thanks to its size-adjustable straps and padded breathable back part, it guarantees excellent carrying comfort – even with very heavy contents. The backpack as a total of three large compartments, each fitted with a high-quality and smooth zip. All the compartments have enough padding to also allow you to carry a tablet or 15" notebook. The detachable front pad is especially nifty and can be used as a knee protector when working on the floor. A ergonomic and very flexible carrying handle, as well as sturdy rubber feet to protect from water-logging add the finishing touches to this very modern-looking and functional backpack.
