

Bilingual group at daycare center Woudrijk

We are planning on opening a bilingual group in 2024 at our daycare location Woudrijk in Papendorp (English/Dutch). Both of these languages will be spoken by the pedagogical staff. The group is specifically intended for children who are being raised with the English language at home. At least one of the staff will be qualified to speak English at the appropriate level and will use it to create a safe pedagogical climate for the children.

Where is Woudrijk daycare center?

We are located in the Papendorp district, in a quiet area near the temporary location of the International School. Woudrijk is easily accessible by car via the A2 and A12.

What does Woudrijk daycare center offer?

We offer childcare to 0-4 year-olds, divided over a number of different groups. The use of natural materials and colors in our spaces creates a sense of calm. A variety of developmental toys and materials are available for the children to discover and play with. We have an outdoor play area with a playpen for the babies, a sandbox, a play structure, and a vegetable garden so that the children can play and discover both indoors and out.

The staff offers a safe environment physically, as well as socially-emotionally, and they track the children's development. Kids are free to explore at their own pace and in their own way. The daily planning follows a regular schedule of theme-based activities such as story-reading, singing, playing, and crafting. We also regularly offer workshops such as music lessons.

In anticipation of this new group opening, we would like to gauge interest by means of a preliminary registration via our website. If you are interested, please visit Woudrijk's website (<https://www.kmnkindenco.nl/kdy/kinderdagverblijf-woudrijk/>) for more information, to sign up or find the manager's contact details.
